UI/UX DORTFOLIO 2025

Vaibhav Chandla
Interact Designer

ABOUT

Hi I'm Vaibhav, I love solving visually compelling digital experiences.

About?

I design products with clear purpose and emotional appeal, creating intuitive experiences that feel natural and meaningful. My approach blends research, strategy, and visual design to ensure every interface supports both user needs and business goals.

- UI/UX Design
- Prototyping
- Concept Sketches, Wireframes
- Design Systems
- Design Systems

Languages:

English
Hindi

Softwares:

Figma | Adobe Photoshop | Adobe Illustrator | Adobe Lightroom

PROJECTS

01 STUDEX

02 QUICK QUERY

01 StudEX

Alternative Finds, Sustainable Minds.

Problem

Universities and colleges attract students from across the country and beyond, creating a vibrant ecosystem of exchange. However, the process of finding affordable, quality accommodation remains a major challenge. Students face long commutes, high costs, and a lack of trusted options, which adds stress to their academic journey.

Personas

Seller

- Mona Patel
- 19 y.o.f
- Student, Indore
- Lives with her parents

Pain points:

- Hard to find listings from trusted sellers
- Unclear pricing and inconsistent quality
- Limited reach beyond her college network

Buyer

- Raj Vardhan
- 19 y.o.m
- Student, Rajwadi Bhopal
- Lives in a hostel

Pain points:

- Expensive rents
- Inconsistent room quality
- Difficulty finding rooms near campus
- Limited to the local student network

Objective:

- Help students save money and feel more safe
- Make it easy to find and trust rooms near campus
- Ease a sense of community by connecting students locally
- Reduce stress around housing by providing greater transparency

Solution

StudEx is a dedicated platform for college and university students to find affordable, verified accommodation near their campus. The app connects students and sellers, ensures transparency, and makes the entire rental process faster and more secure. Students can filter by budget, distance, and room type, while sellers can manage listings and connect with students directly. This helps students save time, reduce stress, and find a place they can trust.

Information Architecture

StudEx is a dedicated platform for students, whether as tenants or landlords, to find and manage rooms near their campus. The app connects students and sellers, ensures transparency, and makes the entire rental process faster and more secure. Students can filter by budget, distance, and room type, while sellers can manage listings and connect with students directly. This helps students save time, reduce stress, and find a place they can trust.

Final UI

02 QUICK QUERY

Your personalized doubt clearing companion

Learning Assistant

Problem

Students struggle with getting timely, personalized feedback on their assignments and coursework. Traditional methods are slow, limited in availability, and often fail to provide the clarity needed for effective learning.

Personas

Disha

- Student
- 19 y.o.f
- Bangalore

Bio:
Disha Sharma is a 19-year-old 8th grade student from a middle-class family in Bangalore. She is preparing for her upcoming board exams and is facing challenges in understanding complex topics in science and mathematics.

Needs:

- Clear explanations of complex topics
- Accessibility, affordability
- Personalized feedback

Pain Points:

- Difficulty understanding concepts
- Limited access to tutors
- Time-consuming doubt resolution

And

- Student
- 19 y.o.m
- Delhi

Bio:
And is 19-year-old high school student from Delhi who is preparing for his upcoming board exams. He is facing challenges in understanding complex topics in mathematics and science and seeks a reliable tool to clear his doubts.

Needs:

- Quick, accurate solutions
- Affordable, accessible tutoring
- Personalized learning paths

Pain Points:

- Limited access to tutors
- Time-consuming doubt resolution
- Expensive tutoring
- Lack of personalized learning

Comp. Analysis

Company Advantages

- Diverse course offerings
- Expert educators
- Large user base
- Strong brand recognition
- Personalized learning

Company Disadvantages

- Limited one-on-one interactions
- Dependency on internet access
- Subscription based monetization
- Not a substitute for school
- Not free from an regional language

Main Takeaway:

- Focus on personalized learning and flexible scheduling to cater to diverse learning needs.
- Address accessibility and affordability challenges to ensure that the platform reaches a wider audience.
- Leverage technology to enhance the learning experience.

Solution

Quick Query

Quick Query is a mobile app that provides instant, personalized assistance to students with homework, coursework, and exam preparation. The app uses advanced AI to understand student questions and provide clear, accurate, and tailored responses, helping students learn more effectively and overcome academic challenges.

User Flow

Following the onboarding, the app flows seamlessly between core features, including AI-powered doubt resolution, personalized learning paths, and progress tracking. The design prioritizes quick access to learning while maintaining a clear path to more detailed exploration when needed.
